CARE and MAINTENANCE

Always begin with a clean, charged intimate product. Your Tryst is rechargeable and comes with a USB Cable for convenient charging. Average charging time is 70 minutes, and when fully charged usage time is approximately 90 minutes. When charging the button will blink on/off. When fully charged, button will light up solid.

To clean Tryst, spray with your preferred Doc Johnson Toy Cleaner or wash with mild soap and warm water. Do not submerge. Pat dry. Allow to dry completely before storing. Always remember to clean your Tryst before and after each use, and store separately from other intimate products.
