Introducing eight new additions to the incredibly popular Kink by Doc Johnson collection.

Made in collaboration with Kink.com, the world's most trusted leader in BDSM, Kink by Doc Johnson represents the future of BDSM gear: thoughtfully crafted, top-quality pleasure products with the number one fetish company in the world's stamp of approval.

NEW PRODUCTS

THE MILKER – 2401-40-BX

This vibrating, flexing silicone massager produces a unique 'come hither' motion that delivers intense orgasms when used for prostate milking or g-spot stimulation and squirting. Powerful vibrations in 7 distinct patterns travel up and down the entire shaft, while a motorized flexing tip applies firm strokes to the p-spot or g-spot with the Milker's soft bulbous head.

THE RIMMER – 2401-41-BX

With three independently controlled motors, this rechargeable p-massager is equipped with multiple pleasure-packed features including: two independently-controlled 10-function vibrating motors (one each in the tip and perineum stimulator); a band of internal rotating ridges at the base of the shaft emulating the pleasurable sensation of rimming; and a bendable perineum stimulator that can be positioned at different angles. The internal ridges rotate at three speeds for added control. USB charger included.

SIGNATURE PLUGS – 2401-45-BX (3") / 2401-46-BX (3.75")

Luxuriously soft, premium silicone plugs with the official Kink logo inlaid at base in a bold, red-and-black color scheme. At 3" and 3.75" total lengths, they feature a tapered tip for easy insertion, a flared base for safe use, and a long, flexible neck for ultra-comfortable wearability.

RING & PLUG SET – 2402-15-CD

This urethral plugging set includes four interchangeable stainless steel cock plugs, a stainless steel base, and a molded reinforced silicone cock ring. The simple screw-in assembly and easily sanitized materials are user-friendly and assure safe play for new and advanced enthusiasts of urethral play. Includes convenient neoprene storage/travel case.

SWELL – 2404-07-BX

This unisex nipple stimulating device provides auto suction and vibration via an attached remote. Each cup offers independently controlled vibrations in multiple speeds and functions, and the auto suction mechanism is also independently controlled, so users can fully customize their pleasure. A separate quick-release button allows for fast/safe removal.

SILICONE AND ACRYLIC PADDLE – 2404-27-BU

A uniquely designed, high-impact paddle designed for maximum sensation. The clear acrylic surface allows for exciting visuals, while the insertable premium silicone handle is perfect for penetration and ergonomically designed for a steady handheld grip.

PUMPED – 2408-01-BX

A vibrating, sensitizing vaginal stimulator that ergonomically hugs body contours for a strong seal and an ultra-comfortable fit, with a transparent design that gives a clear view of the action. Individual buttons control each of this pump's functions, including automated vacuum suction for effortless hands-free pumping, 7 unique vibrating functions, and a quick-release button for fast, safe shutdown and removal. The pussy pump is held in place with a soft silicone rim, allowing for hands-free use. USB charger included.
