

Made in collaboration with Kink.com, the world's most trusted leader in BDSM, Kink by Doc Johnson represents the future of BDSM gear: thoughtfully crafted, premium pleasure products with the number one fetish company in the world's stamp of approval.

The Kink by Doc Johnson line includes a range of top-quality nipple accessories, designed and manufactured with the approval of the world's leading fetish brand, with the creativity and quality Doc Johnson customers have come to expect.

### NIPPLE ACCESSORIES

#### TWEAK – 2404-01-CD

Tweak nipple suckers create powerful natural suction for authentic sensations and engorgement that traditional clips can't provide. With a simple squeeze, the Tweak set fits perfectly against the skin and creates a strong seal for hands-free fun—just attach to each nipple and watch them swell through the visually stimulating sheer black material.

#### PINCH – 2404-03-BX

Slim tweezer-style clips pinch the nipples and clit for intense multi-zone stimulation. Users can adjust the ring at the center of each clip to change and vary pressure and provide the perfect blend of pleasure and pain. Each clamping implement is tipped in soft red silicone, creating a visually pleasing contrast with the black metal hardware and protecting the skin.

#### SQUEEZE – 2404-04-BX

These beautifully crafted Japanese clover-style nipple clamps tighten with every tug and swing of the heavy chain. Recommended for experienced users, the pressure these clamps provide is intense and long-lasting. Each clamping implement is tipped in soft red silicone, creating a visually pleasing contrast with the black metal hardware and protecting the skin.

#### CHAIN – 2404-05-BX

Classic alligator-style clamps in an extra wide design adjust for the tightest fit necessary to keep them on as the heavy connecting chain swings and tugs at the wearer's tender flesh. The broad tips and screw-clamp construction keep them from popping off until you remove them. Each clamping implement is tipped in soft red silicone, creating a visually pleasing contrast with the black metal hardware and protecting the skin.

#### TUG – 2404-06-BX

These strong, stimulating nipple clamps mercilessly press the wearer's flesh between the slim clamping tips, leaving the heavy center chain and weight to swing. The thick chain and gorgeous faceted weight make these clamps look as incredible as they feel. Each clamping implement is tipped in soft red silicone, creating a visually pleasing contrast with the black metal hardware and protecting the skin.
