Made in collaboration with Kink.com, the world’s most trusted leader in BDSM, Kink by Doc Johnson represents the future of BDSM gear: thoughtfully crafted, premium pleasure products with the number one fetish company in the world’s stamp of approval.

The Kink by Doc Johnson line includes tools for sensation play that are suitable for multiple experience levels to tickle, prickle, tease, and please.

FEATURED PRODUCTS

SPIKE

3-Wheel Solid Metal Pinwheel – 2404-10-BX

5-Wheel Solid Metal Pinwheel – 2404-11-BX

The Spike 3-Wheeled Pinwheel features 3 rollers of spiky sharp points, and produces a variety of tantalizing sensations and effects depending on the pressure applied. For a wider stimulation area, the Spike 5-Wheeled Pinwheel has you covered. Users can lightly roll the wheel across the skin for a light tickling touch, or press harder to mark or pierce the skin with its sharp, prickly points. The individual wheel tracks prevent pinching, while the extra-long handle puts users in total control of the pressure and the pinwheel’s effects. Both the 3-Wheel and the 5-Wheel feature an attractive gunmetal finish. Perfect for sensory play, or as the prologue to a medical fetish play scene.

THE STINGER
Electro-Play Wand
2403-03-BX

THE STINGER Electro-Play Wand – 2403-03-BX

With its easy 1-button operation and moderate sting, The Stinger is suitable for both new and experienced e-stim enthusiasts. This cattle prod-style electroplay wand creates different sensations specific to the area it’s applied, while producing a loud crackling sound and visible spark that’s perfect for training or teasing while leaving no visible marks on the skin. The Stinger’s handle features a non-slip, non-conductive rubber grip, and a safe but powerful current runs between two prongs at end of the contrasting red shaft.
