OptiMALE™ is the world's first men's sexual health and wellness collection, conceived as a destination brand for men seeking high-quality essentials to optimize their sexual well-being and pleasure. To promote the heightened sexual satisfaction and proven health benefits of masturbation, we've introduced a truly varied selection of stroker products.

Featured Products

Reversible ULTRASKYN™ Stroker - Rollerball: Each of these ULTRASKYN™ strokers boasts a silky smooth interior and distinctly textured exterior that can be flipped inside-out as often as desired, for versatile stimulation. Includes a sturdy black travel box.

ULTRASKYN™ Vibrating Stroker - Thick Ribs: Made of lifelike ULTRASKYN™ material, these plush, stretchy strokers feature a powerful 10-function removable bullet that delivers teasing, pleasing, and pulsating vibration patterns at the push of a button. The stroker's closed-ended design provides incredible sucking sensations, while the soft internal texturing adds extra pleasurable stimulation. Includes a sturdy black travel box.

Stroke N' Go - Premium Silicone Stroker with 0.24 fl. Oz. Lubricant: This non-anatomical handheld stroker is made of a super-soft, 100% ultra-premium silicone. The soft, pliable material can be squeezed to increase or decrease pressure and sensation, and the interior texture is softly ridged for added pleasure. The textured exterior lets users maintain a controlled grip even when things get slippery.

Endurance Trainer - ULTRASKYN™ Stroker: Suitable for stamina training methods like edging, the OptiMALE™ Endurance Trainer is designed to help users naturally delay ejaculation and maintain erections for longer sex sessions. This hard-case stroker features a built-in squeeze plate grip that allows users to control the pressure, while the ultra-plush, removable ULTRASKYN™ insert boasts a stimulating textured interior. The end cap adjusts to perfectly customize suction strength, and the screw-on top makes it easy to store safely and discreetly.

Suction Cup Accessory for Endurance Trainer: This strong lever-release suction cup is specially designed to fit the OptiMALE Endurance Trainer's proprietary screw-on end cap and powerfully adheres to any smooth, non-porous surface for hands-free use—excellent for use in the shower/bath. A strong adjustable arm swivels and bends for custom positioning, and locks into place. Includes complete instructions.

Care and Maintenance

Silicone and ULTRASKYN™ items can be cleaned with Doc Johnson Toy Cleaner (sold separately) or with mild soap and warm water. Silicone can also be cleaned in the top rack of a dishwasher. ULTRASKYN™ products should be dusted with ULTRASKYN™ Refresh Powder before storing separately from other toys, in a cool, dry place. Use with water-based lubricant/glide.
