**iVibe<sup>™</sup>**  
select

Meet Doc Johnson's **iVibe<sup>™</sup> Select iRoll**, a premium silicone vibe that will immerse you in waves of pleasure. Let the good times - and blended orgasms - roll.

## Customizable Pleasure

Different strokes for different folks. The iRoll lets you use its three features—vibrations, pleasure beads, and clitoral roller—individually, two at a time, or all at the same time. Plus, multiple functions in each feature lets you fine tune your perfect level of stimulation.

## Three-Speed Pleasure Beads

Inside the iRoll's shaft are ergonomic 'pleasure beads' that luxuriously glide up and down the shaft, immersing you in waves of pleasure, for earth-shattering blended orgasms.

## Wheel of Bliss

The iRoll's external clitoral stimulator is equipped with a rolling wheel of silky-soft silicone "tongues" that recreate the sensation of oral sex. Choose from three functions: towards the shaft, away from the shaft, and back & forth.

## Powerful, Whisper Quiet Vibrations

Double the pleasure with 8 functions of sensually deep, rumbly vibrations. Despite its power, the iRoll is also whisper quiet, so you can play in peace.
