

# FORT TROFF ISSUED PISTON THRUSTER

## USAGE & CARE INSTRUCTIONS

### Power Button on the Thruster:

- Locate the power button on the Thruster and hold for 5 seconds until the light is on.
- Press power button repeatedly to cycle through all the Thruster's functions: 2 thrusting speeds, and then 8 vibration patterns with each thrusting speed.  
NOTE: For vibrations only mode, use the remote control.
- If the device is left in standby mode, it will power itself off after 10 minutes.
- To turn off, hold power button on the Thruster until light turns off.

For full functionality list, please scan QR code below.

### Using the Remote: Remote uses 2 AAA batteries, not included

- Turn on power to the Thruster.
- Press power on the remote
- Press Thrusting button to begin and cycle through 2 Thrusting speeds
- Press Vibration button to begin and cycle through 8 Vibrating functions (3 speeds, followed by 5 vibration patterns)

NOTE: Thrusting and Vibrating functions can be used independently or concurrently.

### Charging Port: Charging time: 70 minutes / Running time: 35 minutes

- Press the jack pin into the charging port (small dimple on the bottom of the Thruster).
- Connect the charge cord to a USB port or adapter. Power button light will flash while charging.
- Power button light will glow solid when fully charged. Remove from charger promptly once charging is complete.

## Care Instructions:

Wash Thruster with Doc Johnson Toy Cleaner or mild soap and warm water. Air or pat dry.  
Warning: Do not use with silicone-based lubricants.

### FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates noise and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
  - (2) This device must accept any interference received, including interference that may cause undesired operation.
- (2) Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
