

FORIA™ AWAKEN

Natural Arousal Oil with CBD and Kava

The first intimate arousal oil for women formulated with broad-spectrum hemp oil, synergistic botanical and aromatic oils. This multi-aphrodisiac formula enhances tactile sensation & pleasure while decreasing tension, discomfort and dryness.

- Made of 8 plant-based aphrodisiacs...and nothing else
- Broad-spectrum CBD-rich hemp oil sun-grown in the USA
- All-natural & organic ingredients in organic coconut MCT oil
- Rich chocolate & mint aroma
- 30-50 servings per bottle
- Independently tested for purity: free of pesticides, heavy metals, microbes and other toxins
- No THC

Great Sex Just Got Better

Foria's all-natural, multi-aphrodisiac arousal oil stimulates her body's natural lubrication, heightens tactile sensation & pleasure, and deepens orgasmic release. Many women report enhanced access to orgasm or relief from the discomfort and dryness of various conditions. Formulated for women to enjoy alone or with a partner, Awaken makes foreplay and sex extra fun with tantalizing natural aromas, silky smooth texture, and minty chocolate flavor that enhances "oral play" for both partners. Awaken doubles as a fragrant intimate massage oil.

Awakening Pleasure

Foria Awaken was developed to benefit women's health & well-being by opening the door to natural, euphoric pleasure. Awaken was inspired by the success of our premier THC product — Foria Pleasure, which is available only in California, Colorado and Canada. Based on extensive R&D testing, we developed an entirely new formula that is legal across the US and around the world.

How Awaken Works

As our first zero-THC product, we formulated Awaken with Kava Kava (which stimulates the same receptors as THC) & CBD-rich broad-spectrum hemp extract — which has numerous beneficial effects, including decrease in muscular tension, enhanced blood flow and decreased pain signaling.

We also included a variety of essential oils & botanical extracts — not only for their aroma & flavor, but for their synergy with cannabinoids. (Scientists call this synergy "the entourage effect.") Interestingly, all 8 ingredients have long histories as traditional aphrodisiacs across cultures.

Usage

Awaken is designed for topical use at the start of foreplay. Spray directly on the labia, clitoris, and inside the vagina, or apply manually. Sensation-enhancement begins to build after massaging it in, though some people may desire some time to absorb even before foreplay begins. Experiment to find your ideal style. Awaken's smooth glide and decadent aroma & flavor enhance oral and manual stimulation. Re-apply as desired throughout the session for extra glide, aroma, or stimulation. Awaken is topically safe, non-toxic, vegan and gluten free.

Cautions

- Oil-based: not for use with latex.
- Allergens: avoid use if you (or your partner) are allergic to any ingredients. Contains coconut oil, which is considered a "tree nut."

Ingredients

Organic MCT Coconut Oil, Broad spectrum Hemp Oil, Whole-Plant Extracts (Kava Root, Organic Cinnamon, Organic Ginger); Proprietary Oil Blend of Organic Cardamom, Organic Peppermint, Organic Vanilla & Cacao Oil.

Purity Matters

Like all of our formulas, Awaken's ingredients are all-natural and grown pesticide-free. The final product is independently tested for purity, ensuring that it's free of pesticides, heavy metals, microbes and other toxins.

We're particularly careful to only use US-sourced broad-spectrum hemp. Ours is sun-grown without pesticides on an organic farm that uses sustainable practices for enhancement of soil & protection of the local watersheds.
