

Doc Johnson has partnered with Motorbunny to elevate its world's first and only hybrid saddle vibrator and thruster machine, Motorbunny Buck, to create a version compatible with Doc Johnson's patented Vac-U-Lock technology.

The Doc Johnson x Motorbunny Buck with Vac-U-Lock showcases the signature "all-the-way-to-11" vibration power of Motorbunny and has two separate thrusting motions. With Vac-U-Lock compatibility, this machine now gives users endless possibilities to deliver targeted, adjustable stimulation and have profound, multi-layered orgasmic experiences.

- Manually Control Motions or Explore Many Preprogrammed "Buzz" and "Thrust" Routines

- Motorbunny LINK-enabled Controller Allows You to Share Control of Your Buck Wirelessly
- Bluetooth Compatible with Free Motorbunny App • iOS and Android Compatible
