RECHARGEABLE VIBRATING C-RING

Instruction Manual

Specifically designed for direct clitoral contact, the OptiMALE™ Rechargeable Vibrating C-Ring provides intense pleasure for both you and your partner. Distinctly angled motor creates direct contact during penetration, while 7 powerful settings provide pleasing vibration to intimate areas, enhancing pleasure play. The stretchable silicone ring provides comfort and a snug fit to boost sexual stamina, extend erection time and deliver thicker, more potent erections. Conveniently rechargeable, it's ready when you are.

Always begin with a clean, charged c-ring. Your OptiMALE™ Rechargeable Vibrating C-Ring comes with a USB cable for convenient charging. Average charging time is 50 minutes, and the fully charged c-ring has a usage time of approximately 90 minutes.

Simply press the button to begin vibrations. Each press of the button will cycle the motor through 7 powerful settings of vibration, pulsation and escalation.

To turn off your OptiMALE™ Rechargeable Vibrating C-Ring, press and hold the button for 3 seconds.

Elevate Your Intimate Experiences

Caution: Prolonged and frequent use of penis enhancing devices may cause ruptured blood vessels, hemorrhage and hematoma formation. These devices can also aggravate existing medical conditions such as Peyronie's disease, priapism and urethral stricture. Penis enhancing devices should always be used with discretion.

The powerful motor can be worn at the top of your shaft for direct stimulation of your partner during sex play, or worn underneath your shaft to provide pleasure to your testicles.

The OptiMALE™ Rechargeable Vibrating C-Ring was specifically designed to provide direct contact during partner play, elevating your intimate experiences.

The stretchable silicone ring is designed to expand and slide over the head of the penis. Slowly move the c-ring down your shaft to the base.

Water-based glide or lubricant can be applied to aid in positioning your c-ring.

To clean your OptiMALE™ Rechargeable Vibrating C-Ring, spray with your preferred Doc Johnson Toy Cleaner or wash with mild soap and warm water. Do not submerge. Pat dry.

Always remember to clean your c-ring before and after use and store separately from other intimate products.

Choose the best! Silicone is considered the premium material in intimate products. Silicone is hygienic, hypoallergenic, and warms to your body temperature.
